DESCRIPTION:

This table is for the user's information when they register. Their information will be saved automatically in this table. This table will serve as the reference if they already have an account when they logged-in.

- **USER_ID** - The users have their own unique ID in order to modify their information without affecting the other tables.
- **ADDRESS** - Since our website is an online-shop we require a location for the deliveries of our customer's orders.
- **CONTACT NUMBER** - In addition with the address we also require the contact information for the delivery of the products purchased by the customers.
- **USERNAME** - For easier classification of our customers detailed information and the identification of their accounts.
- **PASSWORD** - This is unique to every customer's information for the privacy and security of their accounts.
